# From the Principal's desk

Dear Parents,

This will be the last King's Ken of the year, and I wanted to take the opportunity to honour our parents. There are many challenges to raising children in today's world and your investment in your child's education will be a gift to them in the years to come.

We consider it a privilege to partner with parents in providing a solid, value-based grounding in children's lives. At The King's School they will learn many of the same factual information as in other schools but they will also learn how to understand and evaluate this factual information in the light of God's truth. All truth is God's truth and he has something to say about every topic that we cover in class.

As children learn many new bits of information and then learn how to put them all together into a coherent picture in God's world, their conversation will be "gracious and attractive, so that (they) will have the right response for everyone" (Colossians 4:6).

This verse talks about conversation 'seasoned with salt' and makes us think of Jesus telling his disciples that they are salt and light in a dark world. I believe that we are raising a generation that will be hope-bringers in their engagement with others, let's not grow weary of investing in them.

Mr. Ken Langley  
Principal
